§ 1 Race types

4.1.001 The mountain bike discipline includes the following events comprising the specialties listed below:

A. Cross-country: XC (Chapter II cross-country events)

Cross-country Olympic: XCO

Cross-country marathon: XCM

Cross-country point-to-point: XCP (point to point)

Cross-country short circuit: XCC (Short Track)

Cross-country eliminator: XCE

Cross-country time trial: XCT (Time Trial)

Cross-country team relay: XCR (Team Relay)

Cross-country stage race: XCS (Stage races)

B. Downhill: DH (downhill) (Chapter III downhill events)

Individual downhill: DHI

Massed-start downhill: DHM

C. Four Cross: 4X (Chapter IV four cross events)

§ 2 Age categories and participation

4.1.002 Participation in races is organised on the basis of the age categories set out in articles 1.1.034 to 1.1.037, except as specified below.

Women Under 23

4.1.003 In cross-country Olympic mountain biking, women aged from 19 to 22 are grouped in an "Under 23" category.

Cross-country Olympic – XCO

4.1.004 Except in the UCI world championships, continental championships and, at the discretion of national federations, national championships, Under 23 men and women can ride the events for elite men and women respectively, even if a separate event is being run for Under 23 riders.

Separate Under 23 XCO world cup events are organized for men and women. The first 10 men U23 and the first 5 women Under 23 of the last individual XCO UCI Ranking of the preceding year can decide whether they want to race the entire World Cup season as elite or U23. All other U23 riders must race the World Cup season in the U23 category.

Cross-country Marathon – XCM

4.1.005 Cross-country marathon events are open to all riders aged 19 or over and include Masters categories. No separate results must be submitted for Under 23 or Masters categories.

Cross-country Eliminator - XCE

Cross-country Eliminator events are open to all riders aged 17 or over. No separate results must be submitted for the Junior, Under 23 or elite categories.

Cross-country short circuit – XCC

Cross-country short circuit events are open to all riders aged 17 or over. No separate results must be submitted for the Junior, Under 23 or Elite categories.

Downhill – DH

4.1.006 Downhill events are open to all riders aged 17 or over.

UCI points are awarded in relation to the rider's time and not to their category. This applies to all races on the international calendar, including world championships, continental championships and national championships.

Comment: For instance, a Junior finishing with the 5<sup>th</sup> overall time at the World Championships receives the 160 UCI points awarded to the 5<sup>th</sup> position, no matter its age category.

Four Cross – 4X

4.1.007 4X events are open to all riders aged 17 or over. No separate results must be submitted for the Junior, Under 23 or Elite categories.

Stage races - XCS

4.1.008 Stage races are open to all riders aged 19 or over. No separate results must be submitted for the Under 23 categories.

Masters

4.1.009 All riders aged 30 or over who hold a masters licence are allowed to ride mountain bike events on the UCI international masters calendar, apart from:

1. riders who, during the current year, have ridden a mountain bike event on the international calendar or regional games or Commonwealth Games other than a masters event with the exception of the world mountain bike marathon championships;
2. riders who during the current year have been a member of a team registered with the UCI.

4.1.010 In cross-country marathon events or the UCI mountain bike marathon Series, master riders may ride with a temporary or day licence issued by the competent national federation.

The licence sets out clearly the start and end dates of the period for which it is valid. The national federation ensures that a holder of a temporary or day licence benefits for the duration of that licence from the same insurance coverage and other advantages as those granted with an annual licence.

To compete at the masters world championships masters must hold an annual masters licence.

§ 3 Calendar

4.1.011 International mountain bike races are registered on the international calendar in accordance with the following classification:

- Olympic Games (OG)
- World Championships (CM)

*No other international mountain bike event of the same speciality may be organised during the world championships.*

- World cup (WC)  
No Hors Class or Class 1 event of the same speciality may be organised on the same continent on the same day as a world cup event.  
The continental championships (CC) in a speciality may not be organised during a world cup event in the same speciality.
- masters world championships (CMM)
- continental championships (CC)  
No Hors Class or Class 1 event of the same speciality may be organised on the same continent during the continental championships.
- stage races  
Hors Class (SHC)  
Class 1 (S1)  
Class 2 (S2)  
No stage race may be organised during the Olympic Games, world championships or world cup events.
- one-day races  
Hors Class (HC)  
Class 1 (C1)  
Class 2 (C2)  
Class 3 (C3)

The events status for stage races and one-day races are allocated to each event annually by the UCI Management Committee on the basis of the commissaires race report from the preceding year. A new event may only be given Class 2 or 3 status in its first year. A detailed technical guide for HC events, stage races and new events must be presented to UCI during the calendar registration process.

However, an event is only given hors class status (per stage or one-day race) if the previous season's race had 30 foreign riders starting, representing at least 15 different nationalities, based on the Elite participation only.

All events registered on the international calendar must respect the UCI financial obligations (in particular calendar fee, prize money) approved by the UCI Management Committee and published on the UCI website.

Race entry fees for events on the international calendar are waived for any rider belonging to a UCI ELITE MTB Team. This applies only to the discipline in which the team has ELITE status and does not apply to stage races.

#### § 4 Technical delegate

- 4.1.012 For the Olympic Games, world championships, world cup events and continental championships a technical delegate is appointed by the UCI.
- 4.1.013 Without prejudice to the responsibility of the organiser, the technical delegate supervises the preparation of the technical aspects of the event and serves as a link with UCI headquarters in this respect.
- 4.1.014 If an event is promoted at a new venue, the technical delegate must carry out an inspection in advance (course, distance, location of feed/technical assistance zones, installations, safety, event race schedule, etc.). He meets the organiser and prepares an inspection report without delay for submission to the UCI mountain bike coordinator.
- 4.1.015 The technical delegate must be on site at least one day prior to the first official training session and must carry out an inspection of the venue and course in conjunction with the organiser and the president of the commissaires' panel. He coordinates the technical preparations for the event and ensures that the recommendations made in the inspection report are implemented. The definitive

version of the course and any changes are the responsibility of the technical delegate. In cases where a technical delegate does not have to be appointed under article 4.1.012, this task falls to the president of the commissaires' panel.

4.1.016 The technical delegate must attend the team managers' meetings.

§ 5 Marshals

4.1.017 All organisers must employ a marshal coordinator, who must speak one of the two official languages of the UCI. The president of the commissaires' panel and, where applicable, the UCI technical delegate meet the marshal coordinator before the event in order to optimise the procedure for giving instructions to the marshals (emergency plans, equipment, whistles, flags, radios, etc.)

The race organiser must provide enough marshals to ensure the safety of the riders and spectators during competition and official training sessions.

All organizers must establish a detailed marshal map for their event. For events where a technical delegate is appointed by UCI, article 4.1.012, a marshal map must be submitted to UCI for approbation prior to the event. For events where no technical delegate is appointed a marshal map must be submitted for prior approbation to the appointed UCI president of the commissaires panel.

4.1.018 The minimum age for marshals is the age of legal majority of the country where the competition takes place.

4.1.019 The marshals must be readily identifiable by a badge or distinctive uniform.

4.1.020 Marshals must all be equipped with a whistle and those located at strategic points (to be defined by the organizer) must be equipped with a radio. They must be positioned so as to provide a radio link covering the whole course.

4.1.021 Marshals must be properly briefed on their role and issued with course maps which provide simple reference points for locating accidents.

§ 6 Event procedure

Safety

4.1.022 The course must only be ridden by the riders during the events and official training periods. All other persons must be kept clear of the course.

Cancellation

4.1.023 In the event of bad weather the president of the commissaires' panel may decide to cancel the event after consulting the organiser and, where appointed, the UCI technical delegate.

Before the start

4.1.024 The course of each event must be clearly defined before the start, and displayed at registration. Access to the course is under UCI control from the time that the UCI technical delegate or, where applicable, the president of the commissaires' panel appointed for the event arrives (course inspection).

Before they arrive, access to the course must be subject to the laws in force and local rules governing the event venue. The organiser may not refuse access to the course for any other reason.

4.1.025 Before the official training periods start, the UCI technical delegate must check that the course is properly and safely marked. A report of this check is made to the president of the commissaires panel

and the organiser. In the absence of the UCI technical delegate the course check and report is made by the president of the commissaires' panel.

- 4.1.026 At the Olympic Games, world championships, world cup events, continental championships, hors class events and all stage races team managers or their representative must attend the team managers meeting(s). The meeting(s) must be indicated on the official program of the event.
- 4.1.027 The checking and control of licenses and the signing on take place in an office at the event. Official training is only be permitted after licences have been checked, other registration formalities completed and handlebar numbers distributed.
- 4.1.028 The definitive list of starters must be drawn up before the start of the race. As well as the riders' names, it must also accurately list their nationality, UCI team, UCI code, category, the race type and the start time.
- 4.1.029 The organiser of the event must provide at least six (6) radio sets to the commissaires' panel, one (1) for the UCI technical delegate if applicable and one (1) for the UCI secretary, to allow the commissaires to communicate properly. These radio sets must have one channel reserved for the sole use of the commissaires' panel and another with which it is possible for the commissaires to contact the director of the organisation. For 4X events the organizer must provide headsets for the radios.
- The start
- 4.1.030 For Olympic Games, world championships, world cup, continental championship events and hors class events the organiser must make provision for a call-up area which is sufficiently large for riders to warm up in, close to the start zone. Other organizers are also encouraged to install a call-up area.
- 4.1.031 In mass start events, riders must be called to the start no earlier than 20 minutes before the scheduled start of the race. This period can be reduced where the number of riders allows. Five minutes before the call-up an announcement must be made over the public address system to inform riders of the fact, and again three minutes beforehand.
- The riders line up in the order in which they are to be called to the start line. The number of riders on each line is decided by the president of the commissaires' panel and supervised by a commissaire. The rider himself decides which position on the line to take.
- Once the riders are lined up, warm-up (by rollers, turbo trainer, etc.) is excluded inside or outside the start area.
- The start is given by the start commissaire using the following procedure: warnings 3, 2, 1 minutes and 30 seconds before the start, then a final announcement that the start is given within the next 15 seconds.
- A starting pistol or, if none is available, a whistle, is used to give the start.
- 4.1.032 The start commissaire is in sole control of the public address system from three minutes before the start, until the start has been given.
- 4.1.033 The start briefing is given in at least one of the official languages of the UCI.
- Conduct of riders
- 4.1.034 A rider must act in a sporting manner at all times and must permit any faster rider to overtake without obstructing.

4.1.035 If a rider exits the course for any reason, he/she must return to the course at the same point from which he/she exited. If the president of the commissaires panel deems that the rider gained advantage, the rider is disqualified (DSQ).

4.1.036 The riders must respect nature and must make sure that they do not pollute the course venue.

4.1.037 Anyone who is found to have altered the course has his/her accreditation removed or, in case of a rider, is disqualified (DSQ).

§ 7 Equipment

4.1.038 The use of radio links or other remote means of communication with riders is forbidden.

4.1.039 The use of tyres fitted with metal spikes or screws is not permitted.

§ 8 Installations

4.1.040 Inflatable arches crossing the course are prohibited.

4.1.041 The organiser must provide a bike washing area.

§ 9 Course

4.1.042 As far as possible, the course for cross-country, four cross and downhill events must be totally separate from that of all other events organised on the same site. If this is not the case, the training and race timetable must be drawn up so that the courses cannot be used simultaneously.

4.1.043 There must not be any obstacles which might cause a crash or a collision in the start and finish zones.

II  
Chapter CROSS-COUNTRY EVENTS

§ 1 Race characteristics

Cross-country Olympic – XCO

4.2.001 The duration of cross-country Olympic format races must lie within the following ranges or as close as possible to them (in hours and minutes).

	Minimum	Maximum
Junior Men	1.00	1.15
Junior Women	1.00	1.15
Under 23 Men	1.15	1.30
Under 23 Women	1.15	1.30
Elite Men	1.30	1.45
Elite Women	1.30	1.45
Masters Men	1.15	1.30
Masters Women	1.15	1.30

4.2.002 The course for an Olympic format cross-country event must be between 4 km and 6 km in length. An attractive course design must ideally use the venue in the form of a cloverleaf.

Double feed/technical assistance zones are strongly recommended.

The course must be marked every kilometer by a sign indicating the distance remaining to the finish line.

4.2.003 Riders must start in a single group.

Cross-country Marathon – XCM

4.2.004 The cross-country Marathon format races must respect the following minimum distances:

	Minimum distances
Marathon (cycling for all)	60 km
Continental championships	80 km
World championships	80 km
The maximum distance is 120 km.	

Any organizer wishing to use distances outside those stated must obtain preliminary permission from UCI.

The above distances reflect to the men category. For women the distances is by preference shorter but still respect the minimum distance of 60 km for a marathon event.

The course must be marked every ten kilometers by a sign indicating the distance remaining to be raced.

The race can be run over a single lap, or multi-lap with a maximum number of laps of three (3).

In the event of a single lap the course may not include any section to be covered twice. Only the start and finishing lines may be located at the same place.

In the event of a multi-lap race, short-cuts on the lap for the women's race are not allowed.

4.2.005 Riders must start in a single group.

Cross-country point-to-point - XCP

4.2.006 The course for a cross-country point to point event must be between 25 km and 60 km in length.

The event must start in one place and finish elsewhere.

XCP events are used mostly during stage races (XCS).

XCP races registered on the international calendar do not give UCI points.

4.2.007 Riders must start in a single group.

Cross-country short circuit – XCC (Short Track)

4.2.008 The start and finish must be in the same area. The distance of the course must not be more than 2 km.

4.2.009 Natural and/or artificial obstacles are only permitted if their use has been preliminary approved by the UCI technical delegate or in his absence, the president of the commissaires' panel.

Cross-country Eliminator – XCE

Course

4.2.010 The course for a cross-country eliminator race must be between 500m and 1000m and include natural and/or artificial obstacles. The whole course must be 100% rideable, single track sections normally are avoided and where possible the course normally has not more than one 180° turn. The start and finish area must be separated in order to allow short race program.

Obstacles such as trees, stairs (up/down), drops, bridges or wooden constructions can create a dynamic short race.

The course must be marked according to articles 4.2.020 to 4.2.029.

Organisation of competition

Qualifying Round

4.2.011 At least 12 riders must be entered for the qualifying round, otherwise no XCE event may be held.

A qualifying round is organized on the same day as the main event.

The qualifying round takes the form of an individual timed run of one lap of the course. The best 32 riders (8x4) or 36 riders (6x6) go through to the main event (see Annexes 6-7).

In case of a tie between riders during the qualifying round, their order is determined by the last UCI individual XCO ranking. If the riders are not ranked in the UCI individual XCO ranking, lots are drawn to determine their order.

Race numbers for the qualifying round are in sequence starting from 33 or 37 on the basis of the most recent UCI individual XCO ranking.

The riders start in sequence by their race number, the lowest number starting first.

The women ride before the men.

Main event

4.2.012 The race numbers for the main event are allocated on the basis of the results of the qualifying round, starting with the number 1 for the winner of the qualifying round.

The main event comprises elimination heats in which the groups of riders are matched as shown in the tables in Annexes 6 and 7 - XCE Competition Formats.

Each race in the main event has single or multiple laps on the course to a race duration of maximum 3 minutes.

Riders who are DNF, DSQ or DNS in the semi finals may not enter the small final.

The final classification of the competition is drawn up in groups in the following order:

1. All riders competing in the big final are ranked.
  2. All riders competing in the small final are ranked.
  3. Riders DNF, DSQ or DNS in the semi finals are ranked.
  4. The rank of the other riders is determined by the round reached, then by the rank in their heat, then by their race number.
  5. Riders DNF, DSQ or DNS in the first round of the main event are listed without rank.
- Within each of the above mentioned groups, riders DNF are ranked before DSQ and the latter before DNS. In case of multiple DNF, DSQ or DNS, the tiebreaker is the race number.  
Riders not qualified for the main event are not listed in the final classification.

#### Specific Rules

- 4.2.013 A start grid must be drawn on the ground. The riders must be lined up next to each other on one line. The riders in each heat may choose their starting position in order of their race number. The rider with the lowest race number gets first choice.  
The riders must start with one foot on the ground.

Only XCE events hosted at world cup events score UCI points.

#### Cross-country time trial - XCT

- 4.2.014 The distance of the course for a cross-country time trial must be between 4 km and 25 km in length.

XCT events are only used during stage races (XCS).

One day registered XCT events on the international calendar do not score UCI points.

#### Cross-country team relay - XCR

- 4.2.015 Cross-country team relays must be organised at the world championships and may be organized at continental championships as described in articles 9.2.032 and 9.2.033.

Only during world championships UCI points are allocated. The UCI points are allocated to the nation and not to the riders individually.

## § 2 Course

- 4.2.016 The course for a cross-country race normally includes a variety of terrain such as road sections, forest tracks, fields, and earth or gravel paths, and include significant amounts of climbing and descending. Paved or tarred/asphalt roads can not exceed 15% of the total course.
- 4.2.017 The course must be wholly rideable even in difficult weather conditions. Parallel sections must be provided on sections of the course likely to deteriorate easily.
- 4.2.018 Extended single track sections must have periodic passing sections.
- 4.2.019 On the course for a cross-country event at world championships, continental championships, ~~and~~ world cup and hors class events, provision must be made for at least 6 crossing points for spectators. The crossings must be marshalled on each side.

§ 3 Course marking

4.2.020 The **complete** course must be marked and indicated according to the following system:

4.2.021 Direction arrows (black arrows on white or yellow panels) indicate the route to be followed showing changes of course, intersections, and all potentially dangerous situations. The minimum dimensions of direction arrows must be 40 cm by 20 cm and they must not be sited more than 1.5m above ground level.

4.2.022 The arrows must be on the right-hand side of the course except for right turns in which case arrows before and at the turn must be on the left-hand side of the course.

4.2.023 An arrow is located 10 m before each junction, at the junction and 10 m after the junction to confirm that the correct route has been followed.

A clearly visible "X" sign is used to mark wrong directions.

4.2.024 In a potentially dangerous situation, one or more arrows pointing downwards are placed 10 m to 20 m before the obstacle or potential danger, and also where the obstacle or potential danger is.

Two arrows pointing downwards are used for a more dangerous situation.

A serious hazard requiring great caution must be marked with three arrows pointing downwards.

4.2.025 Copies of the following signs must be used:

4.2.026 The sections of a cross-country course that involve steep or potentially dangerous slopes must be marked and protected using non-metallic, preferably bamboo or PVC, stakes (slalom stakes), 1.5 to 2 meters high.

In very fast sections of the course where the technical delegate or, in his absence, the president of the commissaires' panel deems it appropriate, small banners as per the diagram below can be used to mark off the course. The tape must be positioned on the ski gates/piping at a height which does not interfere with television shots (usually at 50 cm from the ground). "Zone A" sections must be at least 2 m wide.

4.2.027 Where course sections involve obstacles such as walls, tree stumps or tree trunks, hay bales or suitable padding must be used to protect the riders. Such protective measures must not restrict the rideability of the course.

In appropriate areas, such as along the edge of steep drops, catch nets which comply with safety standards must be used. Nets or mesh fencing with openings greater than 5 cm x 5 cm may not be used.

Any wooden bridges or ramps must be covered with non-slip surface (carpet, chicken wire or special anti-slip paint).

4.2.028 For Olympic format races at the Olympic Games, world championships, continental championships, world cup and hors class events, the course must be marked out (using stakes or banners) and protected for its entire length.

For marathon format races at the world championships, continental championships and hors class events, the course must be marked out well enough to ensure that it can be followed without problems.

4.2.029 Wherever possible, roots, tree stumps, protruding rocks, etc. are covered in biodegradable fluorescent paint.

#### § 4 Start and finish zones

4.2.030 The start and/or finish banners must be placed immediately above the start and finish lines at least 2.5 metres above ground level and cover the whole width of the riding surface.

4.2.031 The start zone for a cross-country event (massed start events) must:

- be at least 8 metres wide for at least 50 metres before the start line
- be at least 8 metres wide for at least 100 metres after the start line
- be on a flat or uphill section of the course.

The first narrowing after the start must allow riders to pass through together easily.

4.2.032 The finish zone for a cross-country event (massed start event) must:

- be at least 4 metres wide for at least 50 metres before the finish line; for world championships and world cup events this zone is at least 8 metres wide for at least 80 metres.
- be at least 4 metres wide for at least 20 metres after the finish line; for world championships and world cup events this zone is at least 8 metres wide for at least 50 metres.
- be on a flat or uphill section of the course.

4.2.033 Barriers must be in place on both sides of the course for a minimum of 100 metres before and 50 metres after the start and finish line(s).

4.2.034 The final kilometre of the race must be clearly and precisely indicated.

§ 5 Feed/Technical Assistance zone

DIAGRAM 1 : FEED/TECHNICAL ASSISTANCE ZONE ONE SIDE

DIAGRAM 2 : FEED/TECHNICAL ASSISTANCE ZONE OPPOSITE SIDES

DIAGRAM 3 : DOUBLE FEED/TECHNICAL ASSISTANCE ZONE

4.2.035 Feeding is permitted only in the zones designated for that purpose, which are also used as technical assistance zones. **The zone is called Feed/Technical Assistance zone.**

4.2.036 Each feed/technical assistance zone must be located on flat or uphill sections which are slow and wide enough for the purpose. The zones must be long enough and reasonably evenly spaced around the course. Double feed/technical assistance zones are **strongly** recommended.

For Olympic format cross-country events (XCO) **1 double zone** or **2 single zones** are set up. For marathon format cross-country events (XCM) at least **3 feed/technical assistance zones** are set up. **Organisers must anticipate on the team staff access possibilities during cross-country marathon events.**

4.2.037 The UCI technical delegate or, in his absence, the president of the commissaires' panel, in collaboration with the organising director, decides on the distribution and location of feed/technical assistance zones.

4.2.038 The feed/technical assistance zones must be wide and long enough to allow the passing of riders not stopping in the zone.

**For world cup events** they must furthermore include the following **four** areas:

- one part for UCI **ELITE** MTB Teams;
- one part for UCI MTB Teams;
- one area for national teams;
- another area for individual riders or members of teams not registered with the UCI (who are treated as individual riders).

Staff working for riders must wear readily identifiable team clothing.

4.2.039 The feed/technical assistance zones must be clearly identified and numbered. They must be in an enclosure completely separated from spectators. Access must be strictly controlled by commissaires and/or marshals.

4.2.040 For the Olympic Games, world championships, world cup events and continental championships nobody may enter a feeding/technical assistance zone without accreditation.

For the above mentioned events, accreditations are issued by the commissaires' panel at the end of the team managers' meeting.

For world cup events season long accreditations are issued to the UCI ELITE MTB Teams and UCI MTB Teams. For the national federations or individual riders passes are prepared by the organizer and handed out at registration: they obtain 1 accreditation per registered rider per zone. Note that for a double feed/technical assistance zone they only obtain 1 accreditation per registered rider.

4.2.041 Physical contact between feeders/mechanics and riders is permitted only in feed/technical assistance zones.

Water bottles and food must be passed up to the rider by hand by the feeder or the mechanic. The feeder or mechanic is not permitted to run alongside his rider.

4.2.042 The spraying of water on riders or bicycles by the feeders or mechanics is forbidden.

4.2.043 Eyewear may only be changed in the feed/technical assistance zones. An area where glasses may be exchanged may be set up at the end of the zone.

4.2.044 No rider may turn back on the course to reach a feeding/technical assistance zone. Any rider doing so is disqualified.

#### § 6 Technical assistance

4.2.045 Technical assistance during a race is permitted subject to the conditions below.

4.2.046 Authorised technical assistance during a race consists of repairs to or the replacement of any part of the bicycle other than the frame. Bike changes are not permitted and the rider must cross the finishing line with the same handlebar number plate that he had at the start.

4.2.047 Technical assistance can only be given in the feed/technical assistance zones.

4.2.048 Spare equipment and tools for repairs must be kept in these zones. Repairs and equipment changes can be carried out by the rider himself or with the help of a team-mate, team mechanic or neutral technical assistance. Small items such as an inner tube or a small tool may be handed up from the feed/technical assistance zones.

4.2.049 In addition to technical assistance in feed zones, technical assistance is permitted outside these zones only between riders who are members of the same UCI ELITE MTB Team, UCI MTB Team or of the same national team.

Riders may carry tools and spare parts provided that these do not involve any danger to the rider himself or the other competitors.

§ 7 Security

Marshals

4.2.050 Wherever possible each marshal is located in direct line of sight of the next. They signal the arrival of riders with a short, loud blast on a whistle.

4.2.051 All marshals working on potentially hazardous sections of the course must carry a yellow flag which is waved in the event of a crash in order to warn other riders.

First aid (minimum requirements)

4.2.052 At least one ambulance and one basic first aid post are required at all races.

For each event, at least one (1) doctor and at least six (6) people qualified to perform first aid under the laws of the country must be present at the venue.

4.2.053 The first aid post must be centrally located and readily identifiable by all participants.

4.2.054 The first aid posts and the members of the first aid service must be in radio communication with each other, the organisers, the marshal coordinator and the president of the commissaires' panel.

4.2.055 All first aid personnel must be easily identifiable with an appropriate mark or uniform. This must be unique.

4.2.056 First aid personnel must be placed in key locations on the courses that are in use for each day of competition.

There must also be a first aid crew in place for official training days.

4.2.057 The organiser must take the measures required to facilitate the rapid evacuation of injured persons from any point of the course. All-terrain vehicles (motorcycles, quads, etc.) and experienced drivers must be available to reach difficult areas quickly.

Potential hazard areas must be clearly identified and must be accessible by ambulance (four wheel drive if necessary).

4.2.058 A briefing with the organising director, the persons in charge of the first aid and marshalling services and the president of the commissaires' panel must be held before the event.

The organiser must issue maps of the course to the staff of the first aid service.

4.2.059 The organiser must provide **for cross-country events** a motorcycle to mark the front of the race ("lead bike"), and a motorcycle to mark the rear of the race ("sweep bike"). For Olympic format events, the lead bike must display on its front the number of laps remaining in the race.

§ 8 Event procedure

Training

4.2.060 The organiser must make the courses available and fully marked for training at least 24 hours before the start of the first race. For world cup XCO events the deadline is at least 48 hours before the start of the first race.

Riders must display their handlebar numbers during training sessions.

Starting grid

4.2.061 For cross-country Olympic format events (XCO) and marathon events (XCM), other than world championships and world cup events, the riders are called to the start:

1. as per the last UCI individual mountain bike cross-country ranking published for the format in question (or the ranking on the previous 31 December in case no rankings for this format have been published since the start of the year);
2. unclassified riders: by drawing lots.

Classification

4.2.062 Riders who abandon the race are marked on the result sheet as "DNF" (did not finish) and are not awarded any points for this event.

4.2.063 Lapped riders must complete the lap during which they were lapped and leave the event via an exit located before the finishing straight or in the "80%" zone as described in article 4.2.061, if that rule applies. They are listed in the results in the order in which they are pulled out of the race plus number of laps which have not been completed.

4.2.064 The decision as to whether the 80% rule is to be applied for Olympic cross-country events (XCO) is made by the president of the commissaires' panel after discussion with the organiser. Any rider whose time being 80% slower of that of the race leader's first lap is pulled out of the race. He is required to leave the race at the end of his lap in the zone provided for the purpose (the "80% zone") except when the rider is on his final lap. For Olympic cross-country events at continental championships, world cups, world championships and the Olympic Games, the 80% rule must be applied.

4.2.065 Riders pulled out of the race under article 4.2.064 are listed in the results in the order in which they are pulled out of the race plus number of laps down.

§ 9 Stage races

General rules

4.2.066 A stage race is a series of cross-country races in which teams, national federation riders and individual riders may take part. Riders must complete each stage according to the specific procedures for the event in order to be eligible for the next stage.

4.2.067 Without prejudice to article 1.2.044, organisers must forward the race programme and detailed technical guide for their event as mentioned in article 1.2.039 to the UCI for approval. Those documents need to be submitted during the International Calendar registration process. In the absence of such approval the event may not take place.

4.2.068 A stage race may take place on the territory of several countries provided that the national federations of the countries concerned have approved the organisation and the course. Evidence of such approval must be submitted with the application to have the race included on the calendar.

- 4.2.069 Teams are composed of at least two and a maximum of 6 riders.
- 4.2.070 Stages races are assimilated to XCM, therefore MTB Marathon World Champions, MTB Continental Marathon Champions and MTB Marathon National Champions must wear their champion jersey. MTB World, Continental and National XCO Champions can not wear their champion jersey on the occasion of stage races.
- Duration and stages
- 4.2.071 Stage races are run over at least three days, with a maximum of nine days. Only one stage per day may be run.
- 4.2.072 The different types of cross-country events mentioned in articles 4.2.001 to 4.2.009 and 4.2.014, except cross-country eliminator (XCE) can be chosen for the stages.
- 4.2.073 Distance and duration of stages:
- XCO: course of between 4 km and 6 km per lap
  - XCM: stages of between 60 km and 120 km
  - XCP: course or single lap of between 25 km and 60 km
  - XCC: course of no more than 2 km with a race duration of 30 to 60 minutes
  - XCT: between 4 and 25 km
  - team time trial: between 4 and 25 km. The team time are that of the second rider and counts towards the team general classification.
- When a stage finishes on a circuit, times are taken on completion of the laps on the finish line.
- Classifications
- 4.2.074 The individual men's and women's general classification on time are obligatory. UCI points are awarded for the general classification only.
- The individual general classification is based on an individual competitor's cumulative time for each stage.
- Where two or more riders make the same time in the general individual time classification, the fractions of a second registered during individual time trials (including the prologue) are added back into the total time to decide the order.  
If the result is still tied or if there are no individual time trial stages the classifications obtained in each stage are added and, as a last resort, the place obtained in the last stage ridden is taken into consideration.
- 4.2.075 Other general classifications for men and women, such as points general classification, mountains general classification, and the men's and women's team general classifications are optional.
- In stage races where there is a team general classification, there are only three types of teams that may compete for the classification:
- UCI ELITE MTB Teams
  - UCI MTB Teams
  - national teams.
- Except in the case of team time trials, both the men's and women's team general classification is established by adding the times of the two best riders in each stage.
- 4.2.076 Bonuses and time penalties are taken into account. Bonuses are shown only in individual general classifications by time. No bonuses are awarded for individual or team time trial events.
- Technical arrangements

- 4.2.077 A stage event may not include more than one vehicle transfer per three days of event. The duration of each of vehicle transfer may not exceed three hours. A transfer less than one hour is not taken into account.
- 4.2.078 Neutralised linking sections may be included in no more than 75% of the stages. No linking section may exceed 35 km in length. A lead vehicle must control the speed of the field until the start line is reached. The start must take place from a stationary position at the start line. The start must be given either within 30 minutes following the arrival of the lead vehicle.
- 4.2.079 There must be two motorcycles (a lead bike and a 'sweep' bike) for all stages except the individual time trial.
- 4.2.080 The organiser must provide clothing for the leader of the individual men's and women's general classification.

III

Chapter DOWNHILL EVENTS

§ 1 Organisation of competition

- 4.3.001 A single run format must be used. This may involve either:
  - a qualifying run, called the qualifying round following which a predetermined number of riders set by the particular race regulations are admitted to the final. The fastest rider of the final is declared the winner (the system used for the world cup).
  - a run that determines the start order for a single run in which the rider with the fastest time wins.
- 4.3.002 A two run system (with the fastest single time from either run counting to the result) may be acceptable under exceptional circumstances subject to prior authorisation from the UCI mountain bike commission.
- 4.3.003 A system based on two runs using the average or combined times of both is not permitted.

§ 2 Course

- 4.3.004 The course for a downhill must follow a descending route.
- 4.3.005 The course comprises varied terrain sections: narrow and broad tracks, woodland roads and paths, field paths and rocky tracks. There normally are a mixture of fast and technical sections . The emphasis of the course is to test the riders' technical skills and their physical ability.
- 4.3.006 The length of the course and the duration of the event are determined as follows:

	Minimum	Maximum
Course length	1500 m	3500 m
Duration of the event	2 minutes	5 minutes

- 4.3.007 The entire downhill course must be marked and protected using non-metallic, preferably PVC, stakes (slalom stakes) 1.5 to 2 meters high. In very fast and dangerous sections, where the riders line is close to the course boundary, B lines must be installed as per diagram:

- 4.3.008 The use of straw bales to mark off the course is not permitted.
- 4.3.009 The start area must be at least 1 meter and no more than 2 meters wide. A suitable handrail must be installed, the floor must be covered with a non-slip surface and the start area must be covered. The finish area must be at least 6 meters wide.

- 4.3.010 There must be a braking area of minimum 35-50 m after the finish line with adequate protection and completely cordoned off from the public. The riders exit must be designed in that way that the speed is kept to a minimum.

This area must be free of obstacles.

§ 3 Clothing and protective accessories

- 4.3.011 All lycra-elastane based tight-fitting clothing is not permitted.
- 4.3.012 A full-face helmet must be worn properly both when racing and when training on the course. The helmet must be fitted with a visor. Open-face helmets may not be worn.
- 4.3.013 The UCI strongly recommends that riders wear the following protection:
- back, elbow, knee and shoulder protectors made of rigid materials;
  - protection for the nape of the neck and the cervical vertebrae;
  - padding on shins and thighs;
  - broad full-length trousers made from rip-resistant material incorporating protection for the knees and calves, or broad-cut shorts made from rip-resistant material plus knee and calf protectors with a rigid surface;
  - long sleeved shirt;
  - full finger gloves.
- 4.3.014 Helmet cameras are not permitted during qualifying rounds and finals. The riders are responsible for securing the fixation of the helmet cameras in order to avoid any danger. The UCI can decide to allow a helmet camera during finals but only for the usage of the TV production company. Metal/permanent fixtures to attach the helmet cameras are not allowed, tape and velcro are allowed.

§ 4 Marshals

- 4.3.015 Each marshal must be located in direct line of sight of the next. They signal the arrival of riders with a short, loud blast on a whistle.
- 4.3.016 The marshals must be provided with flags so that the safety system below can be used.
- 4.3.017 During official training every marshal must carry a yellow flag which must be waved in the event of a crash to warn other riders who must slow down.
- 4.3.018 Some marshals specifically appointed by the organiser and the marshal coordinator must carry a red flag and have a radio link on the same frequency as those of the president of the commissaires' panel, the organising director, the medical team, the marshal coordinator and, where present, the UCI technical delegate. They must be stationed at strategic points on the course such that they are in direct line of sight with their two closest colleagues earlier and later on the course.

The red flags are used in training and racing.

Red flag marshals who see a serious accident must immediately notify the marshal coordinator by radio, who must as soon as possible notify the president of the commissaires' panel, the organising director, the medical team and, where present, the UCI technical delegate.

Red flag holders must immediately assess the situation of the crashed rider and continue reporting by radio to the marshal coordinator.

Red flag marshals who are not directly affected by an accident must follow the relevant radio transmissions. If they note that one of their colleagues further down the course is waving their red flag, they must immediately do the same.

4.3.019 Riders observing a waving red flag during the race must stop immediately.

A stopped rider must continue calmly to the finish and request a re-start from the finish judge and wait for further instruction.

§ 5 First aid (minimum requirements)

4.3.020 The first aid service must be organised in accordance with articles 4.2.052 to 4.2.058 it being understood that the number of people qualified under the laws of the country to give first aid must be at least eight.

A medic must be stationed at the exit of the finish bowl during racing.

The organiser must submit an evacuation and medical plan to UCI prior to world championships, world cup and continental championships. The organisers medical coordinator must meet the technical delegate if applicable or the president of the commissaries panel before the first training.

§ 6 Training

4.3.021 The following training sessions must be organised:

- an on-foot inspection of the course must be organised before the first training session.
- a training session, the day before competition.
- a training session on the morning of the race day.

No training is permitted whilst a race is in progress.

4.3.022 Each rider must complete at least two training runs on pain of disqualification. The start commissaire must ensure that this rule is applied.

4.3.023 Riders must start all training runs at the official start gate. Any rider starting a training run below the start line must be disqualified from the competition.

4.3.024 Riders must display their handlebar number while training as well as their back number during the qualifying round and the final.

§ 7 Transport

4.3.025 The organiser must provide transport capable of carrying 100 riders and their bikes per hour to the top of the course.

IV  
Chapter FOUR CROSS (4X) EVENTS

§ 1 Nature

4.4.001 Four cross is an elimination event where three or four riders (called a heat) compete side by side on the same downhill course. The nature of this competition is such that there may be some unintentional contact between the riders. This is tolerated if the president of the commissaires' panel considers that it remains within the spirit of the event, fair play and a sporting attitude to other competitors.

§ 2 Organisation of competition

4.4.002 Practice runs must take place on the same day as the finals.

4.4.003 A qualifying round is organised, preferably the same day as the main event.

4.4.004 The qualifying round takes the form of a timed run over the course by each rider. In the event of a tie between riders during the qualifiers, their order is determined by the last UCI individual 4X ranking. If the riders are not ranked, lots are drawn to determine their order.

Riders who are DNF, DSQ or DNS in the qualifying round can not enter the main event.

The riders start on the start commissaire's orders, in the sequence determined by the start list. The women ride before the men.

The race numbers used for the qualifying round are in sequence starting from 33 or 65 on the basis of the most recent UCI individual 4X ranking.

4.4.005 The number of riders qualifying for the first round of the main event is determined by the number of heats of three or four that can be made up.

A maximum of 16 heats is possible (maximum 64 riders).

If fewer than 64 riders ride the qualifying round, the number of heats can be 16, 8, 4 or 2, respecting the minimum of three riders per heat.

Heat order (Men first until Women come to equal heat system, Finals: Women Small Final followed by Final, then Men Small Final followed by Final)

<u>Number of ranked riders in the qualifying round</u>	<u>Ladder</u>
48+	64 riders
24-47	32 riders
12-23	16 riders
6-11	8 riders

The number of riders in the qualifying round may not be fewer than six, otherwise no 4X event may be held.

The race numbers for the main event are allocated on the basis of the results of the qualifying round; starting with number 1 for the rider with the best time during the qualifying round and so on.

TITLE 4 MOUNTAIN BIKE RACES

4.4.006 The main event comprises elimination heats in which the groups of riders are matched as shown in the table below, in order to ensure that the first and second in the qualifying round can only meet in the final.

Men

Women

4.4.007 The riders in each heat ride only once per round. The third and the fourth rider in each heat are eliminated. The first and the second qualify for the next round.

4.4.008 In addition to the final, a small final round is held for the four losers from the semi-finals, in order to determine the 5th to 8th placings. **Riders who are DNF, DSQ or DNS in the semi-finals may not enter the small final.**

4.4.009 The final classification of the competition is drawn up in groups in the following order:

1. All riders competing in the big final are ranked, except for riders DSQ.
2. All riders competing in the small final are ranked, except for riders DSQ.
3. Riders DNF or DNS in the semi finals are ranked.
4. The rank of the other riders is determined by the round reached, then by the rank in their heat, then by their race number.
5. Riders DNF, DSQ or DNS in the first round of the main event are listed without rank.

Within each of the above mentioned groups, riders DNF are ranked before DSQ and the latter before DNS. In case of multiple DNF, DSQ or DNS, the tiebreaker is the race number. Riders not qualified for the main event are not listed in the final classification.

The Finishing Judge must provide a precise classification to the timing team after each run.

**When for any reason the 4X main event (elimination heats) needs to be cancelled the results of the qualifying round stands as final result.**

4.4.010 The riders in each heat may choose their starting position in order of their **race number**. The rider with the **lowest race number** gets first choice.

4.4.011 The riders take the start from a stationary position.

If a part of the front wheel passes the start line before the starting signal the rider is **relegated (ranked in heat different from the actual finish)**.

4.4.012 The riders are required to pass through each gate without straddling it, i.e. both wheels of the bicycle must trace a path inside each gate. This is determined by judges located along the course **or in the TV compound if applicable**. A missed or straddled gate results in **relegation** unless the rider goes to the trouble of returning to pass it correctly.

4.4.013 If all the riders in heat fall or fail to cross the finish line in a preliminary round, the winner is the rider who covered the greatest distance.

§ 3 Course

- 4.4.014 Ideally, the course is set up on moderate slopes with regular gradients. It must also include a mixture of jumps, humps, banked turns, berms, dips, natural tables and other special features. It may also include unbanked turns. There is normally no climbing requiring the riders to pedal.

The course must also be wide enough to allow four riders to line up side by side, and to enable overtaking.

The course must be fully marked out in accordance with the diagram in article 4.2.026 (Zone A and Zone B). Zone A must be at least 2 meters from the course and is at least 2 meters wide.

- 4.4.015 The duration of the race must be between 30 seconds and 60 seconds with an optimum time between 45 and 60 seconds for the winner of the qualifying round.

- 4.4.016 For the first 5 meters of the course, four lanes of an equal width must be marked by white lines (using tape, biodegradable paint or flour). Any rider crossing or riding on these white lines is relegated. In case a rider is crossing or riding on these white lines when he is placed behind his neighbour riders and does not hinder them and has no advantage the relegation can be transformed in a warning.

- 4.4.017 The start straight must be at least 30 metres long. Obstacles in the first 30 meters must be the same across the entire width of the course.

- 4.4.018 The gates on the course must be made of non-metallic stakes (slalom stakes), preferably in bamboo or PVC, 1.5 to 2 metres high.

The gates must be set up with the lower part inwards and the higher part outwards.

- 4.4.019 The last gate on the course must be located at least 10 meters from the finish line.

- 4.4.020 The organiser must provide a raised platform from which the 4X judge has an unobstructed view of the entire course. The platform must be located in a zone to which spectators do not have access.

§ 4 Transport

- 4.4.021 The organiser must provide transport which is capable of bringing the riders to the start of the course promptly. A course running alongside a useable ski lift or cable car run is to be preferred.

§ 5 Clothing and protective accessories

- 4.4.022 A full-face helmet must be worn properly both when racing and when training on the course. The helmet must be fitted with a visor. Open-face helmets may not be worn.

- 4.4.023 The UCI strongly recommends the wearing of the clothing and protective accessories specified in article 4.3.011 to 4.3.014 during 4X events.

§ 6 First aid (minimum requirements)

4.4.024 The first aid service must be organised in accordance with articles 4.2.052 to 4.2.058, it being understood that the number of people qualified under the laws of the country to give first aid must be at least eight.

A medic must be stationed at the exit of the finish bowl during racing.

The Organiser must submit an evacuation and medical plan to UCI prior to world championships, world cup and continental championships. The Organisers medical coordinator must meet the technical delegate if applicable or the president of the commissaries panel before the first training session.

§ 7 Training - competition

4.4.025 The following training sessions must be organised:

- an on-foot inspection of the course must be organised before the first training session.
- a training session, the day before competition.
- a training session on the race day.

When the 4X event is taking place at night, a night practise session must be provided for the riders.

No training is permitted whilst a race is in progress.

4.4.026 Riders must display their handlebar number while training and their back number during 4X finals.

§ 8 Card procedure

4.4.027 Card procedure

During the main event, a system of coloured cards is used by a commissaire at the finish. His decisions must be confirmed by the president of the commissaires' panel.

Card	Meaning	Code	
Yellow	Warning Rider gained NO advantage but behaviour was against regulations	WRN	1 <sup>st</sup> time > no penalty
Blue	Relegation Rider straddling a gate or missing a gate	REL	ranked in heat different from actual finish
Red	Disqualification Putting another rider in danger.	DSQ	excluded from further competition, no result rank

- A rider who receives a second card, whatever the colour, in the same event is disqualified.
- Cards must be shown by the designated Commissaire (Card Commissaire) after confirmation by the president of the commissaires' panel and must be communicated directly via TV and the Event speaker.

V  
Chapter UCI MOUNTAIN BIKE WORLD CUP

§ 1 General

4.5.001 The UCI mountain bike world cup is the exclusive property of the UCI.

4.5.002 Each year the Management Committee of the UCI designates the types of event and the age categories for which a UCI mountain bike world cup takes place, and the races of which it is composed.

Participation

4.5.003 UCI mountain bike world cup events are open to riders corresponding to the following categories and criteria:

Format	Category	One of the below mentioned criteria needs to be fulfilled
XCO	Men Elite (aged 23 and over) Women Elite (aged 23 and over) Men Under 23 (ages from 19 to 22) Women Under 23 (ages from 19 to 22)	1. Having obtained at least 20 UCI points in the UCI XCO individual reference ranking (*). 2. The national federations may enter a maximum of 6 supplementary riders per category. These riders must wear national team clothing.
XCO	Men Juniors (aged 17 and 18) Women Juniors (aged 17 and 18)	1. Each national federation may enter a maximum of 6 riders per category (wearing national outfit required). 2. The national federation of the organising country may register a supplementary team B of maximum 6 riders (wearing national outfit required). 3. Riders belonging to a UCI ELITE MTB Team or a UCI MTB Team.
DHI	Men (aged 17 and over) Women (aged 17 and over)	1. Having obtained at least 20 UCI points in the UCI DHI individual reference ranking (*). 2. The national federations may enter a maximum of 6 supplementary riders per category. These riders must wear national team clothing. 3. Junior riders (aged 17 and 18) belonging to a UCI ELITE MTB Team or a UCI MTB Team.
4X	Men (aged 17 and over) Women (aged 17 and over)	None
XCE	Men (aged 17 and over) Women (aged 17 and over)	Riders registered for the XCO event

(\*)The date of such reference rankings is fixed and communicated by the UCI for each event of the UCI mountain bike world cup.

Registration

4.5.004 All riders must be registered using the UCI on-line registration system ([www.uci.ch](http://www.uci.ch)). UCI ELITE MTB Teams or UCI MTB Teams register their riders, national federations register the other riders who qualify under article 4.5.003.

The on-line registration system opens twenty days before an event and closes on the Monday preceding the event at 12.00 am CET. A table showing these dates is published on the UCI web site.

4.5.005 Late entries from UCI ELITE MTB Teams, UCI MTB Teams and national federations are refused unless authorised by the UCI, subject to respect for article 4.5.003, and on payment of a fine of CHF 300 for the first rider. Where more than one rider per team or national federation is involved, a total fine of CHF 500 must be paid.

Official ceremony

- 4.5.006 The official ceremony takes place immediately after each race involved. **Riders arriving later than 5 minutes after they finished their race are fined.**

The following riders must attend:

- The five first riders in the elite event;
- The leader of the elite general standings after the event in question;
- The first three riders in the XCO under 23 event;
- The first three riders in the XCO Junior event;
- The leader of the XCO under 23 general standings after the event in question;
- The leader of the DHI Juniors general standings after the event in question;
- The first UCI ELITE MTB Team or UCI MTB Team of the event in question.

Bicycles can not be taken onto the podium. However, an area is provided in front of the podium to display the bicycle of the winner during the official ceremony.

Press conference

- 4.5.007 At the request of the organiser, the three highest placed riders in the event and the leader in the world cup standings must attend the press conference.

World cup standings

- 4.5.008 The individual general standings is drawn up on the basis of the points won by each rider in accordance with the table in article 4.5.037.

Riders tying on points are ranked by the greatest number of 1st places, 2nd places, etc. taking account only of places for which points are awarded for the world cup. If they are still tied, the points scored in the most recent event are used to separate them.

In the event of a tie on points in the downhill after the qualifying round and the final, the riders' positions are determined by the result of the final.

For the cross-country Olympic (XCO), separate individual general standings for elite and under 23 are drawn up. There is no individual XCO general standings for Juniors.

- 4.5.009 A UCI MTB Team classification for the event is drawn up on the basis of the points won by **the best 3 riders** in accordance with the "team classification" table in article 4.5.037.

For the cross-country Olympic, a separate classification for men and women is drawn up.

For downhill, the points awarded to men and women are added together to calculate the team classification, **and** only the results of the final are taken into account.

**For 4X, the points awarded to men and women are added together to calculate the team classification and only the results of the main event are taken into account.**

In the event of a tie on points in the UCI MTB Team classification for the event, the placing of the best placed rider in the team is used to determine the team classification. Should there still be a tie in downhill or 4X, the placing of the best placed male rider determines the order.

**There is no world cup general standings for UCI MTB Teams. Only the best UCI MTB Team per world cup event is honoured.**

The riders of the teams leading **the UCI Team rankings set out in article 4.7.006** are given yellow frame numbers which must be used during the world cup.

Leader's jersey

- 4.5.010 The rider leading a world cup general standings must wear the leader's jersey in every world cup event concerned, except in the opening event.

However, they are called to the start line in order of their world cup standings or their UCI individual ranking as applicable to the event.

4.5.016 In cross-country Olympic format (XCO), any rider whose time being 80% slower of that of the race leader's first lap is pulled out of the race. Chapter UCI MOUNTAIN BIKE MARATHON SERIES

§ 1 General

4.6.001 The UCI mountain bike marathon series is the exclusive property of the UCI.

4.6.002 Each year the Management Committee of the UCI designates the events for which a UCI mountain bike marathon series takes place.

Participation

4.6.003 UCI mountain bike marathon series events are open to riders corresponding to the following conditions:

- having an annual license issued by a national federation and present this license at registration
- riders don't need a certain number of UCI points to participate
- unlimited participation for national federations or teams as the riders can participate in their UCI MTB team or club jersey

4.6.004 Age category

The age category for the UCI mountain bike marathon series is 19 years and above and includes Masters categories.

No separate results for Under 23 and Masters categories must be made.

4.6.005 Registration

The registration procedure is handled by each organiser of a UCI mountain bike marathon series event. The registration deadline is on the Thursday preceding the event at 12.00 am CET.

Riders need to complete their register individually for the marathon series. Late entries are accepted on a payment of a fine of CHF 100.

4.6.006 Marathon series ranking

The individual general marathon series ranking is drawn up on the basis of the points won by each rider. Top 40 men score points from 40 to 1 point. Top 20 women score points from 20 to 1 point.

All marathon series events count for the individual general marathon series ranking.

The general ranking period starts at the UCI mountain bike marathon world championships until 2 weeks before the following years UCI mountain bike marathon world championships.

Riders tying on points are ranked by the greatest number of 1st places, 2nd places, etc. taking account only of places for which points are awarded for the marathon series. If they are still tied, the points scored in the most recent event are used to separate them.

The marathon series ranking is published monthly on the 25th and replaces the UCI MTB Marathon ranking.

4.6.007 Leader's jersey

No leader jersey is handed out for the leader of the marathon series ranking.

§ 2 Special rules for marathon series

4.6.008 Top 20 men and women of each round of the UCI marathon series as well as the top 50 of the individual general marathon series ranking obtain a qualification for the UCI marathon world championships.

4.6.009 Race characteristics

The distances of the marathon mountain bike series are minimum 70 km to maximum 100 km for women and minimum 80 km to maximum 120 km for men.

The race can be run over a single lap, or multi-lap with a maximum number laps of three.

In the event of a multi-lap race there may not be a short-cut on the lap for the women's race.

4.6.010 The riders start order is determined as follows:

- the general ranking of the marathon mountain bike series (for the first event after the world championships the start order is according the world championships results)
- subsequently, as per the last UCI XCO individual ranking
- by drawing lots for the other riders

The race start order is determined as follows:

- Start 1: Women Elite (time gap of min 30 to 45 min. according race distance and multi-lap)
- Start 2: Elite Men
- Start 3: General competitors, fun race

VII

Chapter UCI MOUNTAIN BIKE RANKING

4.7.001 The UCI has created the UCI mountain bike ranking. The UCI is its exclusive owner.

The UCI mountain bike ranking is drawn up over a period of one year, in accordance with the conditions set out below, by adding the points won since the preceding ranking was drawn up, and respecting the provisions of article 4.9.008. At the same time the remaining points obtained up to the same day of the previous year by each rider in international mountain bike races are deducted. The new ranking comes into force on the day of publication and stands until the publication of the subsequent ranking.

The UCI mountain bike ranking for Juniors XCO is drawn up annually by summing the points won by each rider in the period from 1 January to 31 December. For Juniors only UCI points are allocated for world championships, world cup events, continental championships, world cup eliminator races and national championships.

4.7.002 An individual ranking for men and one for women is drawn up for each of the following types of event:

- UCI XCO individual ranking (elite and U23 combined)
- UCI XCO Juniors individual ranking
- UCI XCM individual ranking (until 2011 MTB XCM worlds)
- UCI DHI individual ranking
- UCI 4X individual ranking

4.7.003 If an Under 23 rider rides a cross-country Olympic event for Elite riders when a separate event is being organised for Under 23 riders, he is awarded only the points as per the scale applicable to the Elite event. UCI points for under 23 riders are only awarded where there is a separate event from that for elite riders.

If a Junior rider rides an eliminator (XCE) event at a world cup event he scores his UCI points into the UCI XCO Juniors individual ranking. The same applies when a short track (XCC) event is hosted at a world cup event.

4.7.004 Riders who are tied in the individual ranking have their positions decided by their ranking in the most recent event of the season, in the following order:

- 1) world championships
- 2) world cup events
- 3) hors class events
- 4) events in class 1
- 5) events in class 2
- 6) events in class 3

4.7.005 A ranking by nation for men and women is drawn up for cross-country Olympic only. ~~for each of the types of event set out in article 4.9.002.~~ The ranking by nation is calculated by summing the points of three best placed riders from each nation.

The UCI points awarded for the team relay event at the world championships are awarded to the nation in the Elite ranking and not to the individual riders.

A rider's points are awarded to the nation of his nationality, even if he is a licence-holder of the federation of another country.

Tied nations have their relative positions determined by the place of their best rider on the Individual ranking.

4.7.006 A UCI XCO team ranking is calculated by adding the points of the 3 best placed men and the 2 best placed women of each UCI MTB team in the UCI XCO individual ranking.

A UCI gravity team ranking is calculated by adding the points of the 3 best placed DHI men, the 2 best placed DHI women, the 2 best placed 4X men, the best placed 4X woman of each UCI MTB team in the concerned UCI individual ranking.

Tied teams have their relative positions determined by the place of their best rider on the individual ranking.

4.7.007 The number of points to be awarded is shown in the Annexes 2-5.

For the Olympic cross-country ranking only the types of events that meet the criteria set out in articles 4.2.001, 4.2.002, 4.2.008, 4.2.010, 4.2.011 to 4.2.013 and the general ranking of stage races are eligible. No UCI points are awarded for the individual stages of stage races.

For the cross-country marathon ranking only the types of events that meet the criteria set out in articles 4.2.004 are eligible. (Ranking published until 2011 UCI XCM world championships).

The downhill ranking is based purely on individual downhill events. No points are awarded for massed-start downhill events.

The 4X ranking is calculated from 4X events.

4.7.008 For events in the categories below, only the best results of each rider are taken into account:

- Class 1 one-day events: the best 5 results
- Class 2 one-day events: the best 4 results
- Class 3 one-day events: the best 3 results
- Class 1 stage races: the best 3 results
- Class 2 stage races: the best 2 results

4.7.009 The UCI mountain bike ranking is updated after Olympic Games, world championships, ~~or~~ world cup events, continental championships and on 31 December.

VIII

Chapter MASTERS WORLD CHAMPIONSHIPS

- 4.8.001 Only licence holders under articles 1.1.001 to 1.1.028 and 4.1.009 may take part in the masters' world championships. A race number is only issued on presentation of the licence.
- 4.8.002 The riders taking part in the masters' world championships represent their country, but are permitted to use the equipment of their choice.
- 4.8.003 All details specifically relating to the masters world championships must be obtained directly from the organiser or from the UCI web site.
- 4.8.004 The championships are usually organised in 5 year age groups: 30-34, 35-39, 40-44, etc. Depending on the number of participants in each age group, an age group may be divided into subgroups of less than five years or joined with an adjacent age group, in which case there is a single overall classification.
- 4.8.005 An event is not organised for a specific age group if there are fewer than six riders at the start. However, there must always be a minimum of 2 age groups per event.

IX
